10KV SURGE ARRESTOR

PLS-10KV-SA

SPECIFICATION

Voltage/ U_n (VAC)	: 100-320V
Max Voltage/MCOV/ U_c (VAC)	: 350V
Rated load current/ I_L (A)	: 5A
Norm. discharge current/ I_n (kA) ²	: 5KA
Max. discharge current/ I_{max} (kA)	: 10KA
Surge impulse voltage/ U_{oc} (KV)	: 10KV
Voltage protection level/ U_p (V)	: 1.0KV(L-N, L-G/PE, N-G/PE, LN-G/PE)
Power supply system	: TN
Waterproof grade	: IP65
Work environment	: -30°C~+80°C

PRODUCT FEATURES

- Applicable to class I or II lamps
- Built-in protection modes: L-N, L-PE, N-PE, L,N-PE
- Built-in thermal separation function for higher security
- Series isolation design for excellent protection performance
- IP65 dustproof and waterproof grade
- Excellent surge resistance and very low residual voltage
- The product is small and convenient for embedded installation
