Feature of UltraSlim LED Magnetic Light

- Flexible and repositionable LED lights along the magnetic track.
- Supports various types of LED lights (tracklights, floodlights, cylinder lights, etc.).
- Easy installation with magnets for attaching and removing lights.
- Adjustable lighting direction and positioning along the track.
- Scalable system for adding or removing lights easily.
- Energy-efficient LED lights for cost savings.
- Dimming and control options for brightness adjustment.
- Sleek and aesthetically pleasing track design.
- Suitable for residential and commercial lighting applications.
