

PRESTIGE

PRO LED STREET LANTERN

installation method

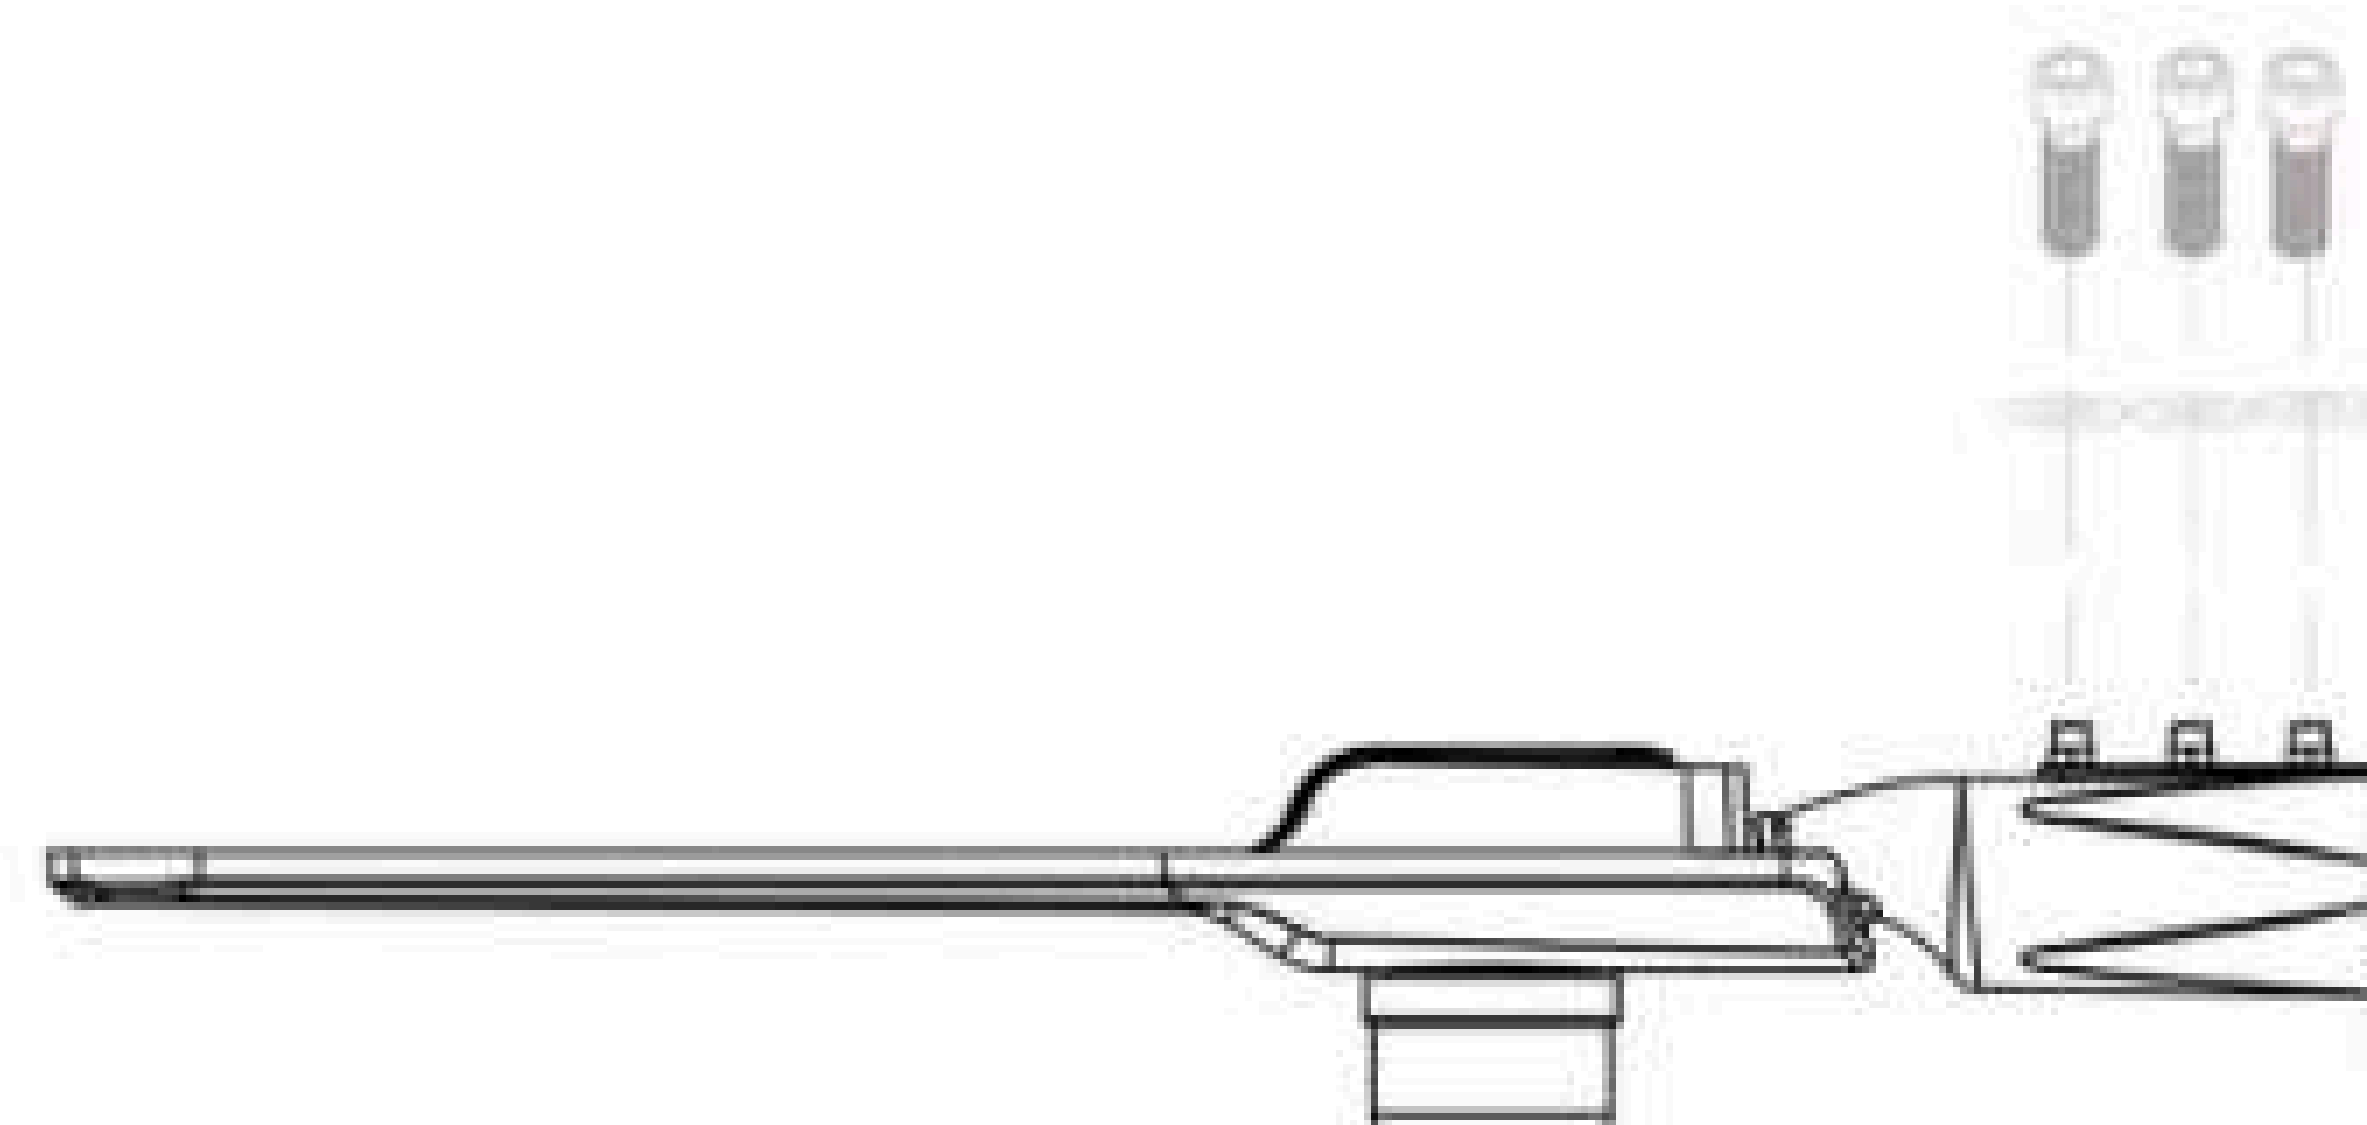

Note: before installation.

Only use a **round cable supplied** to connect this fitting. (6mm Diameter minimum.)

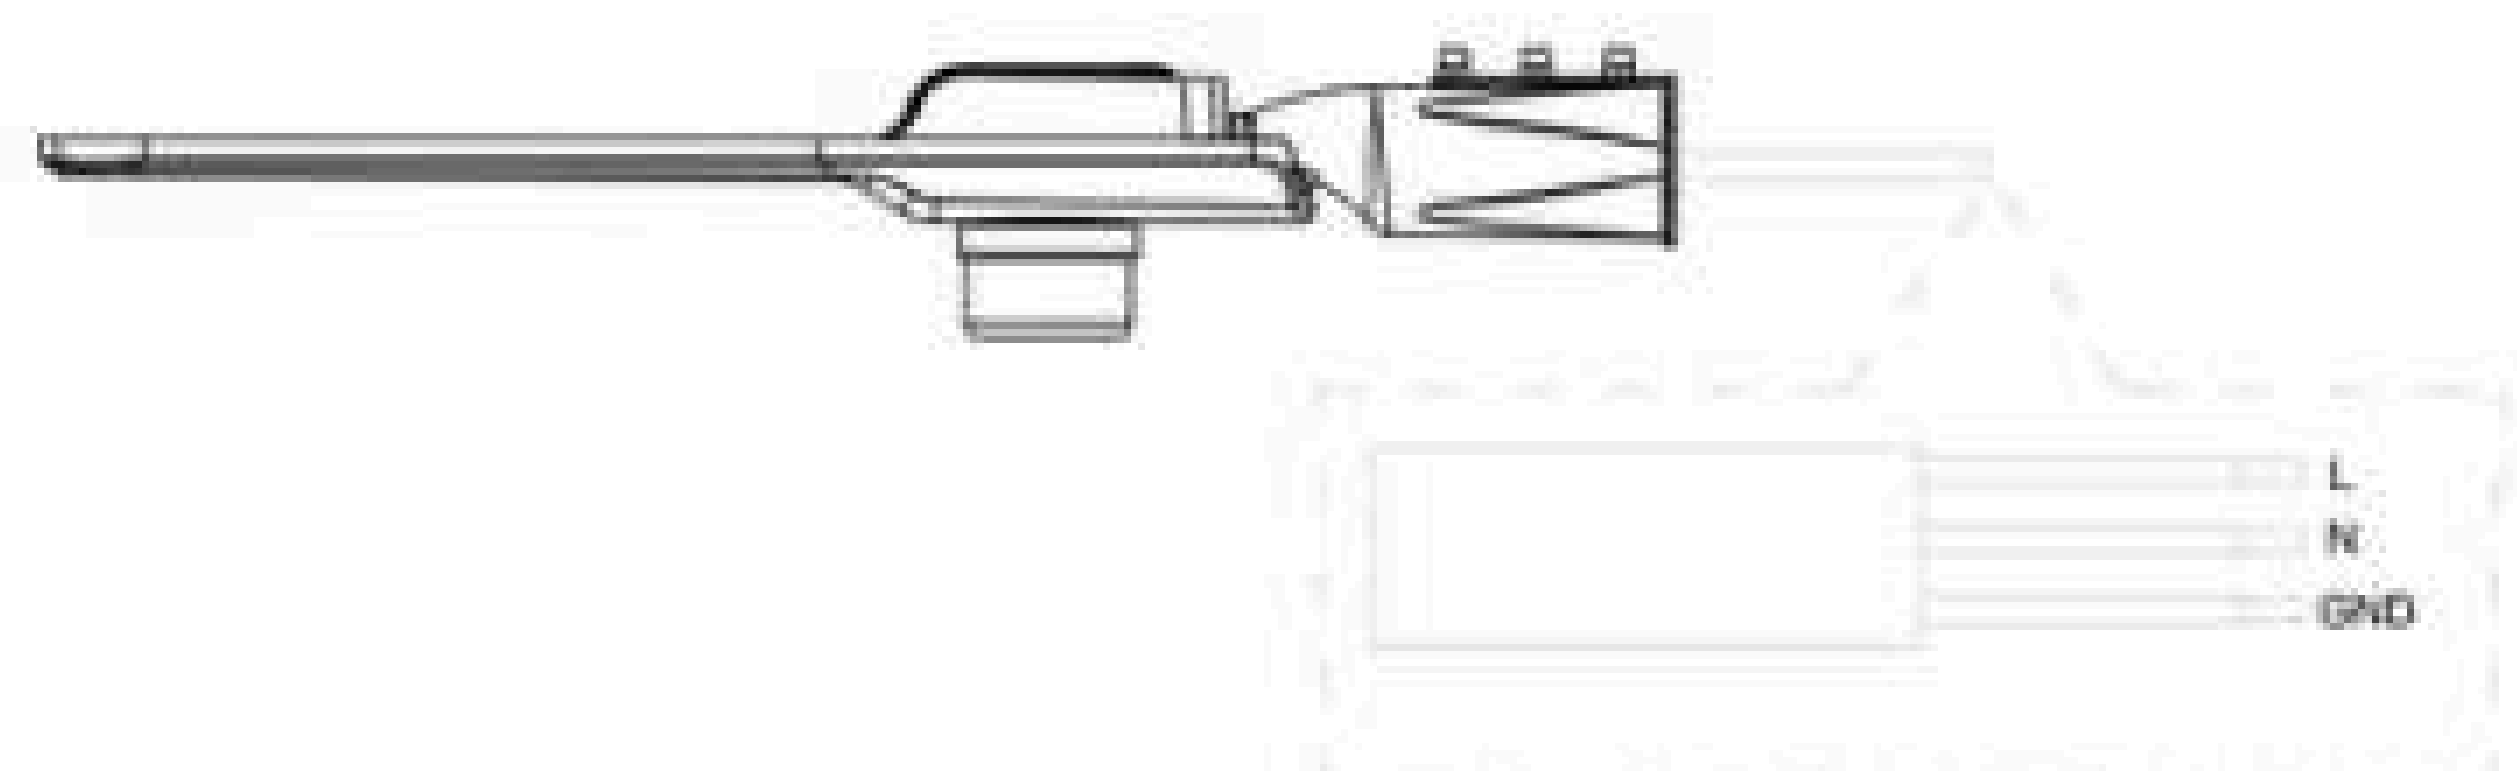

This is required in order to create a good water seal when connected to the fitting.

1-Fasten the adjustable bracket with stainless steel screws

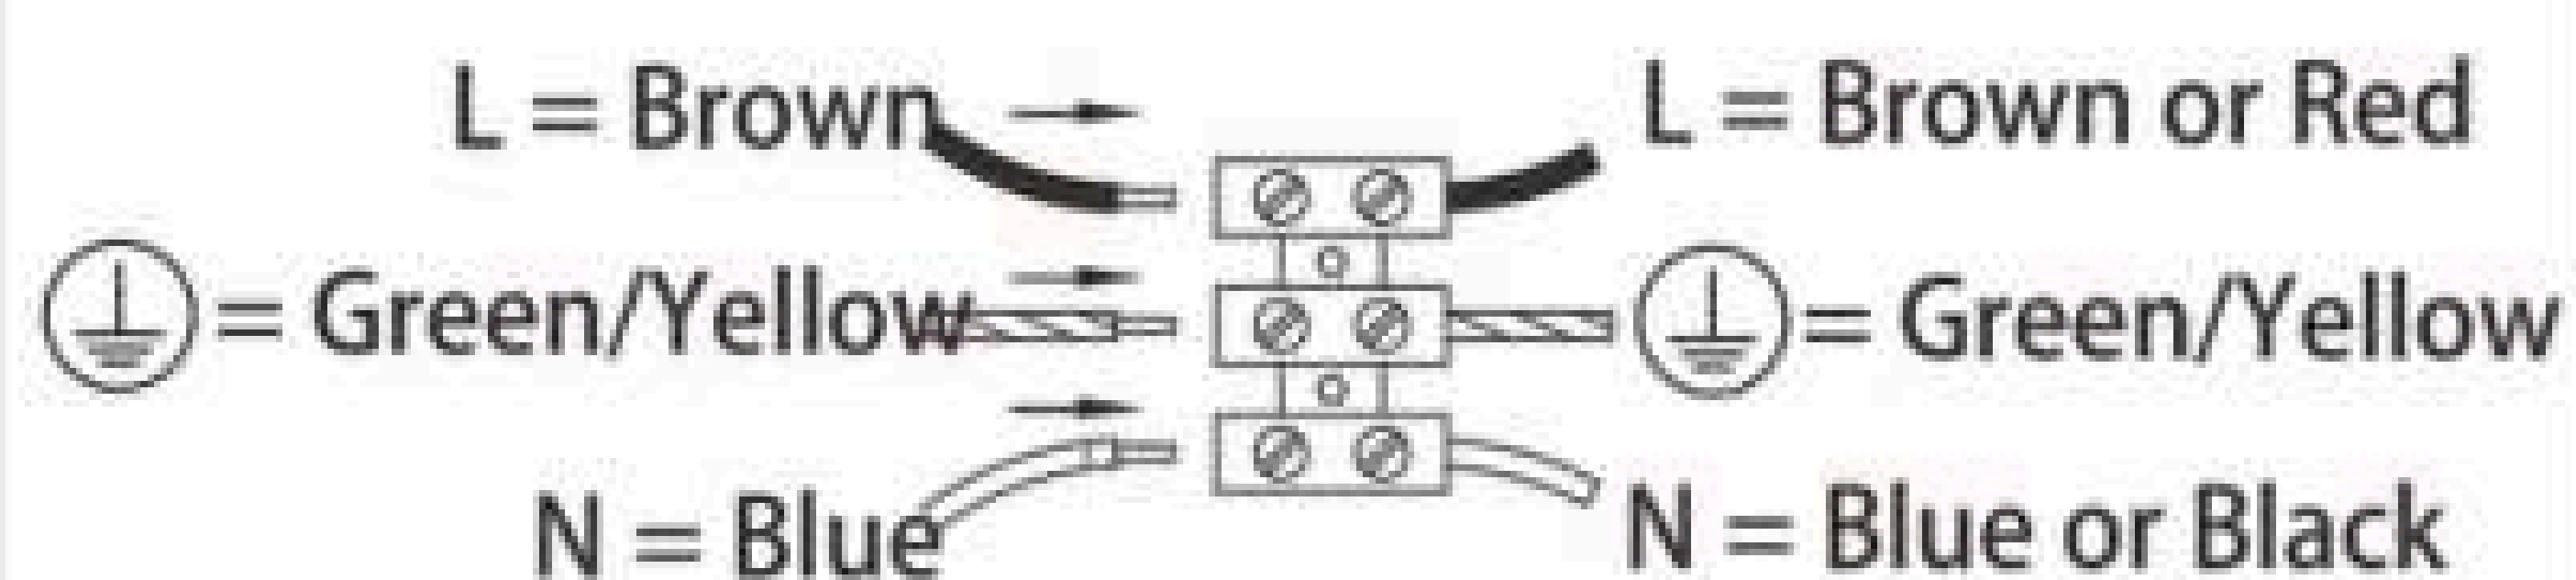

2-Connect the Main Line to the power wire of the lamp.

3-Ensure the terminal connection is made inside a suitable IP65 rated junction box.(not included)

From Floodlight

From IP65 Rated Junction Box

4-Install the LED street lights in the pole and wall.

This product should be disposed of responsibly at the end of its life. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice (Waste Electrical and Electronic Equipment Directive)
