

5 SIMPLE REASONS TO SWITCH

legrand

BELANKO™ / NEW RANGE OF WIRING DEVICES

 **legrand**®

5 IMPL E REASONS TO SWITCH TO BELANKO™

With Belanko™, simplicity is beauty. Now, discover 5 good reasons why Belanko™ should be your choice for wiring devices.

IDEAL CHO1CE	02
NEAT PRE2ENTATION	04
EASY & SAF3 INSTALLATION	06
MORE FUNCTION4LITIES	08
WIDE AS5ORTMENT	12

IDEAL CHOICE

With Belanko™, switches perform exactly the way you expect them to. Beyond performance, we give you a choice between large rockers and the conventional small one.

It is your choice. Go with the large rockers that feature 1 to 4 gangs.

FUNCTIONAL AND RELIABLE
2 gang switch with large rocker

COMPACT AND VERSATILE
3 gang switch with large rocker

CONTEMPORARY AND APPEALING
1 gang switch with large rocker

AESTHETICS MEETS FUNCTION
4 gang switch with large rocker

Colour Plates

Something more to go along with?

SUBTLE BEIGE
2 gang switch with large rocker and beige plate

DISTINCTIVE TAUPE
Double pole switch with red neon indicator and large rocker and taupe plate

NEAT PRE²ENTATION

We know how important it is for professionals like you to deliver perfect installations fast – always. Because your goal is also our goal, we ensure that our switches are always neatly wrapped with a soft protection film.

You now enjoy peace of mind. Your switch stays clean and neat until it is delivered to the customer.

The soft protection film keeps the product safe from dust.

Only the soft protection film will get stained by the ongoing wall paintwork.

The result is a perfectly neat installation – every time.

EASY & SAF³ INSTALLATION

Fitting switches is probably only one of the many tasks that you have to undertake. By making sure that installation is safe and easy, you are left with more time to tackle other tasks.

The safety features of Belanko™ wiring devices make installation both easy and safe.

Clear marking of terminals for easy identification and safe wiring

Double entry for each terminal facilitates wiring

Wires are held in place with the clamping plate. This reduces the risk of damaging wires. The combination of double entry and clamping plate ensures long term reliability of the connection.

Certified Quality

Your safety is our top priority. That's why Belanko™ wiring devices are compliant with safety standards.

MORE FUNCTION₄LITIES

Need something extra? Belanko™ has just that.
We provide additional functions to suggest just a few
more possibilities to meet your everyday lifestyle needs.

For enhanced comfort, Belanko™ offers dimming solutions for complex lighting.

1000W Dimmer

1500W Dimmer

1000W and 1500W Dimmers
These new 2-way Push ON/OFF Rotary dimmers can be associated with a switch for remote ON/OFF control from another point in the installation.

They memorise the last light level set before switch-off – and when switched on again, light level will be restored as previously memorised.

Voltage Selection (for 1500W dimmers)

A rated voltage converting switch on the upper right part of the base allows you to select – 230V or 127V. Factory setting is 230V.

MORE FUNCTION⁴LITIES

1500W dimmer

Ideal for upgrade or retrofit

With the 1500W dimmer, upgrading of existing installations is really easy. It can be fitted in either 1 gang or 2 gang boxes, so that there is no need to change boxes in case of retrofit.

Safely connected to power – in different standards

1 gang single pole switched with external rocker

15 A US socket outlet, 2P + E

16 A German standard socket outlet, 2P + E

Socket protection IP44

The splash-proof cover for socket protection ensures IP44 with or without plug engaged.

Single TV socket, "F" type

Get connected with TV, telephone and data sockets

Complete with TV, telephone and data sockets, Belanko™ not only keeps you connected to power but also to the rest of the world.

Double RJ 11 socket

Double RJ 45 socket

WIDE AS50RTMENT

1 gang switch

4 gang switch

1 gang switch with red neon indicator

1500W Push ON/OFF
Rotary dimmer

Fan control

Single TV socket, "F" type

Double RJ 11 telephone
socket

Double RJ 45 data
socket

Push-button with bell symbol

Belanko™ dimmers

■ Fixing in 1 or 2 gang boxes - Dimmer Cat.No 6 170 32 - 1500 W

Preparation with 1-gang box

Preparation with 2-gang box

■ Choose your brightness adjustment - Dimmer Cat.Nos 6 170 31/0 32 - 1000 W / 1500 W

Push ON/OFF and rotary dimming

Push to turn ON

Rotate for brightness adjustment

Push to turn OFF
When pushed OFF, the dimmer memorizes the light level for the next switching ON

Push ON
The light level will be restored as previously memorized

Belanko™ ventilation control

■ Ventilation control Cat.No 6 170 33

Rotate to turn ON
When turned ON the fan control works at full capacity. This ensures that the whole ventilation system - fan included - is effectively ON.

Rotate to reduce the speed

Rotate to turn OFF
Going back to full capacity before turning OFF ensures that the whole ventilation system - and not only the fan - will be effectively switched OFF

Belanko™
