About ARTDNA

Gamder Electrical Appliance CO. Ltd is an excellent representative of Chinese electrical equipment industry. Its factory covers an area of 20,000 square meters, with first-class standard factory buildings in garden style, equipped with advanced international forming and processing equipments and design softwares. Its production strictly follows the advanced international standards of ISO and IEC, besides, it is the first company to get the low-carbon product certification issued by China Certification Center.

Germany, Japan and China are known as the contemporary world's three dominant manufacturing countries. Made in China has shown its significant competitive advantage around the world. Outstanding Chinese companies are not content to merely export products to the world, they start to export technology and brands to the world. Based on this concept, ARTDNA roots the internationalization strategy in the brand essence, and tries to get the excellent quality of "Made In China" supported by every family all over the world.
